SOFTWARE ENGINEERING EXPERIENCE

Software Development Engineer 2022 —
Elisyum

Largely a continuation of my prior freelance work, however now working with a team of experienced developers, which contributed to my gaining of early teamwork and cooperation experience.

Freelance Software Developer (Web Full-Stack) 2018 — 2022
Workana, Glassdoor, Freelancer.com

Worked mainly with web development of landing pages, e-commerce and payment processors. Gained experience working with SQL, PHP, Node.js, MongoDB, JavaScript frameworks and web design.

SELECTED PROJECTS

FORMAL EDUCATION

BSc, Informatics 2022 —
Federal University of Rio de Janeiro
Bachelor's degree in computer science.

BSc, Informatics 2020 — 2022
Federal University Fluminense
Incomplete bachelor's degree in computer science due to transfer.

Informatics 2018 — 2020
Pedro II College
Technical degree in analysis and development of software systems.

SKILLS

Software engineering – C, Python, C++, PHP, Java, JavaScript, Functional and OOP.

Fundamentals – Linux desktop and server, CLI, Git, Bash, Vim, Web design, \LaTeX .

System architecture – Assembly, Compilers, KVM, memory architectures, virtual machines, x86.

Web technologies – HTTP, SEO, jQuery, SQL, Node.js/Express.js, React.js, HTML/CSS, Flexbox, CMS, MongoDB, Apache, nginx, CDNs, APIs.

LANGUAGES

Portuguese – Native Tongue - Self-explanatory.

English – Fluency - I've been communicating in this language since i was very young and thus am at a native-like level.

Spanish – Reading - Due to the similarity to portuguese and my experience with spanish speaking persons, i can reliably read and comprehend text but not hold a complex conversation.
